Emilia Amper's solo project *Trollfågeln* presents a playful, vibrant and rhythmic new soundscape where nyckelharpa and voice meets percussion-focused folk music ensemble and classical strings.

A kaleidoskopic mix of traditional Nordic tunes and Emilia's own compositions shows influences from all over the world, from folk, rock, pop and chamber music, and explores the possibilities of the nyckelharpa. Hypnotic, melancholic and meditative, super groovy and shining with happiness, the *Trollfågeln* project is a vivacious roller-coaster ride with Emilia at the wheels.

"In my solo project, my love and respect for tradition merge with an on-going, exciting and occasionally also painful exploration of my own boundaries and those of my instrument. For me, life is powerfully affirmative and music and the movements of body and soul unite."

**Robert von Bahr** (Founder and owner of BIS Records): *"I have never experienced anyone, anytime, who could so transfix a public like this girl."* "A unique production with a unique artist."

**Fredrik Kronkvist** (Jazz saxophone player): *"What a sound, rhythm, intensity... The whole concert was awesome!"*

**Joakim Milder** (Professor of Improvisation at KMH in Stockholm): *"Amazingly beautiful playing!"*

**Mattias Petersson** (composer): *"Like hearing Glenn Gould playing Bach."*
