LINA NYBERG

Lina Nyberg is one of Sweden's most creative and innovative jazz singers. For about 20 years she has been attracting consistent and widespread attention, starting with the debut in 1993 with the duo CD *Close* together with late pianist Esbjörn Svensson until the release of her 18th album *Terrestrial* in 2017, that was also the third part of a spectacular trilogy of double albums including Linas music for Big band, String Quartet and Symphony Orchestra.

NEWS 2019

In 2019 she will tour during summer with her band in Lebanon, Egypt, Amman and Sweden in a special project with Lebanese singer Tania Saleh, Egyptian violinist Nancy Mounir and portuguese trumpet player Susana Santos Silva.

In 2018 she started up a **new duo collaboration** together with the brilliant Swedish pianist **Daniel Karlsson**. After a very successful premiere in March at The Vortex in London (through the Jazzalloy-project initiated by Musikcentrum Öst) they have decided to make an album that will be released in the fall.

"Going from dramatic and cloudy to bright, Nyberg and her band seemed like extensions of one another, despite the music's unpredictable idiosyncrasies." Down Beat Magazine

"This work has a lot to offer, it is so rich in all it's many parameters that it needs multiple listenings to grasp on the whole. In the end, we are entirely content" Jazz.pt

"With her arresting delivery, moving, poetic songs and exquisite orchestral arrangements tempts us to listen very carefully." Salt-Peanuts.eu

"Nyberg's incredible command of the lyrics and music, and compelling musical vision make this ambitious storytelling project riveting." Down Beat Magazine
